

Sports Tracker PRO

Shanliang Yao 1930954

Installation

- Copy the entire directory to the server directory.
- Import the *sports.sql* file in the root directory to the database.
- Modify the link information of the database in the *common/dbHelper.php* file.

Demonstration

- Some pages in the project are listed below. I also deployed this project on the server at <http://cw2.411.iat.net.cn/>. You can access it easily and conveniently.
- The account used for demonstration is **ShanliangYao** and the password is **123456**. You can also re-register a new account for access.

ID	User	Sport	Duration	Distance	Start Time	Average Speed	Calories	Is Public
